Comments:

Well done Eric. Hope you can stay around.

Eric is a very effective teacher and is effective at presenting the material in a thoughtful and interesting manner, often drawing from his own experience working with the UofT environmental group. Also, he is easily approachable and will answer any course related problems that are brought to him.

Good job. Please explain more materials that will be on the exams and make review notes

I have enjoyed Eric's tutorial this semester, however, I think he could have had a slightly more sequenced order to the tutorials. Eric is a very approachable, humorous teaching assistant. This contributes to his teaching ability. The atmosphere in his class is very relaxed which made it a great way to end a long Tuesday full of heavy classes. He is easy to listen to and communicated the material quite well. Thanks Eric!
